

DT 240 PRO

Dynamic Headphone

Order # 718.270

FEATURES

- For studios and on the go
- Professional sound tuning
- High noise attenuation
- Excellent wearing comfort
- Rugged design

DESCRIPTION

The compact DT 240 PRO is a closed headphone for professional applications. It provides studio quality in any environment, even with mobile applications.

The headphone features a clean, deep bass, vivid mids and defined highs.

Precise and powerful drivers ensure a high output volume on all devices such as laptops, cameras and studio interfaces. Therefore, the DT 240 PRO is ideal for producers, podcasters and filmmakers who want to take full advantage of the potential of their equipment.

A high noise attenuation prevents the penetration of ambient noise, nor does sound penetrate outwards.

The lightweight ergonomic, padded headband and soft, replaceable ear pads provide a comfortable wearing, even for a longer period of time.

The rugged design ensures excellent durability in tough everyday applications.

TECHNICAL SPECIFICATIONS

Transducer type	dynamic
Operating principle	closed
Frequency response	5 - 35,000 Hz
